

Russell DudekAI-Enabled Operations & Technology Leader | Enterprise Delivery, Governance & Adoption
Pittsburgh, Pennsylvania412.287.8640russelldudek@gmail.comlinkedin.com/in/russelldudek
russelldudek.github.iogithub.com/russelldudek/universal
CANDIDATE FOR DIRECTOR, ARTIFICIAL INTELLIGENCE TECHNOLOGY | UNIVERSAL ORLANDO RESORT

EXECUTIVE PROFILE

Operator-technologist who makes complex work visible, connects technical and business teams, and builds operating mechanisms that turn emerging technology into adopted, measurable outcomes. Brings more than two decades of engineering and operations leadership, AI and automation advisory since 2017, current AI-first operating transformation, and experience in high-reliability, regulated and 24/7 environments.

ROLE-ALIGNED CAPABILITIES

Enterprise AI portfolio direction Cross-functional technical leadership AI readiness and opportunity framing
Production-readiness mechanisms Data, governance and human authorityOperating metrics and value evidence
Vendor and API accountability Testing, quality and process control Team development and operating cadence

SELECTED EXPERIENCE

Vape-Jet
Director of Operations
2025-Present
Lead AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/Odoo, Jira, HubSpot, Slack, telemetry and AI-assisted workflows.
Connect factory, field, customer and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, dashboards, standard work, training and accountability.
Work in a software-enabled robotics and machine-vision environment with approximately 1,000 fielded robots informing support and operating feedback loops.
DudeWorth
Founder / AI and Automation Advisor
2017-Present
Develop AI-readiness and opportunity frameworks assessing value, feasibility, data readiness, governance, adoption burden, reuse and time-to-value.
Design agentic workflow patterns using structured context, retrieval, AI agents, human judgment, escalation, decision records, evaluation and governance rails.
Advise on AI-enabled operations, logistics technology, warehouse automation, AMRs, ASRS, cobots, transportation systems, network analysis and workflow design.
Amazon
Operations Management / Site Leader
2014-2018
Led launch and execution for Amazon Prime Pittsburgh in a 24/7 customer-backward environment supporting approximately five million second-day orders annually.
Built leadership routines, labor planning, throughput visibility, escalation paths, standard work and operating mechanisms across safety, quality, customer experience and team engagement.
Contributed to logistics innovation through Prime Air research and Amazon Flex geolocation concepts.
Compunetics
Director of Operations and Engineering Management
2000-2013
Progressed through R&D program management, production management, strategic acquisition, operations management and director-level leadership.
Led engineering, manufacturing, quality, customer delivery and complex technical programs in advanced electronics and high-reliability environments.
Built quality systems, standard work, root-cause practices, performance measures and process controls; collaborated with DoD, CERN, Intel and AMD.
